

FUEL SAVINGS - Savings from using cheaper fuel (low Octane/RON)

When MyGreenOil is added into Normal fuel, it immediately reformulates it at the molecular level, changing it into a Super Efficient Combustion Fuel. This makes it possible for users to use cheaper lower Octane or RON rating fuels and save on expensive fuel costs. In Jakarta Indonesia the most popular brand of fuel is Pertamina. It comes in 3 different quality and price as follows:

Fuel Types from Pertamina

- 
Pertamina PREMIUM
 Octane Value: 86
 Price: Rp.4,500
- 
Pertamina PERTAMAX PLUS
 Octane Value: 96
 Price: Rp.7,150
- 
Pertamina PERTAMAX
 Octane Value: 90
 Price: Rp.6,950

Car dealers in Indonesia only recommend Pertamax or Pertamax Plus to be used for new modern vehicles. They strictly do not recommend Pertamina Premium due to its low octane/RON number.

MyGreenOil has been testing two cars in Jakarta Indonesia over the last five months.

- ▶ Mercedes Benz E320 (W210 - 2001)
- ▶ Chevrolet Captiva (2.4l - 2007)

Both cars have been using Pertamina PREMIUM (low Octane 86) reformulated with MyGreenOil for the last five months without any problems. The Chevrolet Captiva has been using it since day one from brand new!

Both the cars have been working well without any problems. Infact the Pertamina Premium fuel mixed with MyGreenOil which is much cheaper, now gives better, if not more performance and smoothness than even the most expensive Pertamax Plus (higher RON) fuel. Both the cars has also been getting Fuel Savings, Power & Performance, Smoothness, Quieter Engine and Lower Harmful Exhaust Emissions.

- 1 Chevrolet Captiva (2.4 - 2007) has been using Pertamina PREMIUM (low Octane 86) since NEW, 5 months ago.
- 2 Mercedes E320 (W210 - 2001) has been using Pertamina PREMIUM (low Octane 86) for the last 5 months.

Immediate Fuel Savings from the difference in Fuel Cost is achieved when 50 litres of fuel (one full tank) is purchased and reformulated with MyGreenOil. The amount of immediate savings can be substantial.

Pertamina PERTAMAX PLUS	Rp 7,150.00 per litre
Pertamina PREMIUM	Rp 4,500.00 per litre
TOTAL Savings Per Litre	Rp 2,650.00

Total Savings for 50 litres (one full tank) is Rp 2,650.00 x 50 = Rp 132,500.00

This does not include the savings achieved from extra mileage and lower maintenance costs.
