

Increased Power & Performance

SPEEDWORKS – Dynamic Test Systems DYNO – Horsepower & Torque

A dyno test done on a Mercedes Benz W140 S320L, before and after adding fuel reformulated with MyGreenOil. The test conclude that torque increased by 56 points from 424.8 to 481.1 just 10 minutes after MyGreenOil was added into the fuel. Hosepower was significantly higher throughout the horsepower curve
